FOR IMMEDIATE RELEASE

**The Southeastern Society of Plastic and Reconstructive Surgeons
Selects Drohan Management Group for
Association Management Services**

June 15, 2010 (Reston, VA) – The Southeastern Society of Plastic and Reconstructive Surgeons (SESPRS) has selected Drohan Management Group (DMG) as the organization’s new service and support team. DMG began its partnership with SESPRS July 1, 2010, and will provide full-service management for the group.

SESPRS has four primary objectives. They include:

1. To maintain professional excellence in that branch of the Healing Arts established by our predecessors and recognized and respected by our contemporaries as Plastic and Reconstructive Surgery.
2. To provide forum for the exchange of information, experience and opinions which will serve to strengthen and inspire our members in their pursuit of the highest levels of personal conduct and professional service.
3. To promote and further medical and surgical training and research pertaining to the study and treatment of congenital and acquired deformities and to keep the medical profession and the general public informed of the ever expanding benefits arising from progress made in these fields.
4. To cooperate with other regional and national groups of Plastic Surgeons in the common endeavor to advance the specialty.

“Helping SESPRS to raise the standard of care for patients, while also supporting the Southeastern Society’s proud past and promising future are two key priorities for us,” said Bill Drohan, President of DMG. “Our staff looks forward to helping the SESPRS membership reach their professional goals and taking SESPRS to new heights in the years to come.”

“The Southeastern Society of Plastic and Reconstructive Surgeons has a long history of leadership in the field of plastic and reconstructive surgery.” said Dr. James L. Moore, current President of the SESPRS. “Beyond meeting the needs of our regional colleagues, we have sponsored internationally acclaimed symposia for more than 25 years. We recently offered the first international live feed of a meeting. We are excited about our association with DMG and the prospect of moving the Southeastern even more to the forefront of organized plastic surgery.”

DMG is a full-service Association Management Company based in Reston, VA. The company was founded in 1986, and its executives have over 200 years of combined experience in the association field. DMG has a staff of 40 and manages 20 national and international organizations on both full-service and project bases. For more information about DMG, visit www.drohanmgmt.com.
